

# CASE STUDY

## The Challenge:

Design and deliver a one-day engagement for all 1,000 of the students at Park View (Haringey) to help one of our most valued clients establish a new vertical housing system in their school.

## The Solution:

Learn by Design put together one of its largest dedicated workshop days to date, utilising 15 different workshops, 16 Education Communicators, 3 vehicles and over £35,000 worth of equipment. To emphasise the inter-house competitive spirit and to ensure focus remained on supporting the new system, bespoke worksheets were developed featuring key messages and scoring measures.

## The Results:

*“Thank you so much for all you and your team did yesterday. We were all really impressed with the range of activities and how they were conducted. I have also had some very positive feedback from our students who thoroughly enjoyed the sessions. We look forward to working with you again in the future.”*

Ozlem Sheker – Head of Year 8

ENGAGE

“ Thank you for such a successful and inspirational day for our students. The mentors pitched the workshops at exactly the right level, as well as being totally engaging and incredibly organised. The student feedback was excellent. ”

Charles Dickens School, Broadstairs, Kent

## Proven experience delivering quality workshops.

Since 1995 Learn by Design have worked with thousands of schools to inspire young people in science, technology, engineering and maths (STEM), enterprise and motivation skills.

Our sessions can be tailored to meet the needs of any age range, ability and group size and take place within the school environment to fit around existing timetables.

The programmes we offer cover three successful themes:

### STEM

- Our STEM workshops are designed to be practical, fun and innovative, to increase engagement in science, technology, engineering and maths.

### MOTIVATION

- Raise the aspirations of young people and develop self-confidence with a motivation workshop which focuses on the skills and attitude required for success.

MOTIVATION WORKSHOPS ARE IDEAL FOR YEAR 6 TRANSITION DAYS AND PUPIL PREMIUM STUDENTS

### ENTERPRISE

- Understand the skills required to develop a business and become a successful entrepreneur in an enterprise workshop which covers sales, marketing, target setting and finance.
